

The Franschhoek App

What is The Franschhoek App?

The Franschhoek App is a home-grown, Franschhoek-based app available for free on Android and Apple devices, designed to share your venue, product or service with visitors to, and residents of, Franschhoek.

What's more, The Franschhoek App includes a bespoke ride-hailing service that puts guests in direct contact with Franschhoek-based transport service providers, without the need to make a phone call or load their credit card details.

Why it pays to be listed in The Franschhoek App

Listings in the app link directly to your existing website, booking and payment platforms, allowing your guests to interact with your brand just as you intended. Other than providing your listing information, there's nothing else you need to do.

As The Franschhoek App is actively promoted to guests already in Franschhoek, it becomes the go-to answer to question: "What is there to do in Franschhoek?"

Need a restaurant? "Look in The Franschhoek App." Want to go on a tram, wine, beer or cycle tour? "Look in The Franschhoek App." Looking for a special gift, a new outfit or a diamond ring? "Look in The Franschhoek App."

The app is responsive, easy to navigate and always up to date. All that's missing is your listing!

What are the listing options?

The Franschhoek App offers three listing options on a month-to-month basis, all exceptionally well-priced:
